So easy to fight fat

Have you wondered why the extra-fat people of old days have so largely disappeared? The chief reason lies in a scientific discovery made some 25 years ago. Medical research found that a great cause of excess fat lay in a deficient gland. A way to correct it was discovered. Since then, physicians the world over have employed this method in the fight on fat.

A famous medical laboratory perfected the utmost in this method in Marmola prescription tablets. People have used them for 21 years—millions of boxes of them. You can see the results wherever you look. Excess fat in men and women is nowhere near as common as it was.

No starvation, no over-work, corrects the cause of excess fat, but moderation helps. When the cause lies in a defective gland, that cause must be corrected.

The slender figures that you see about you are largely due to Marmola. The new youth and beauty, new health and vigor that you envy. You do yourself a grave injustice if you omit this help.

The way is to correct this gland deficiency. No abnormal exercise or diet. Simply take four tablets daily until weight comes down to normal. Watch the fat go, watch the new vitality return. You will be delighted. Do this now to live life at the full. You should not delay a day.

Marmola prescription tablets are sold by all druggists at $1 per box. If your druggist is out, he will get them at once from his jobber.

FAT WOMEN!

Here Is Splendid News

Reduce Safely

Take Fat Off Any Part of Your Body

No Drugs To Take.

No Foolish Dieting.

Amazing Discovery.

MILLIONS of overstout, fat hips, double chins, bulky arms and protruding busts, thick looking legs and ankles will soon disappear, thanks to the discovery of "COLLIPASTE," which you rub into any fat parts, as you would a cream, yet it is not a cream and does not contain a drop of water.

COLLIPASTE actually penetrates! It goes right in and creates heat, thereby bringing oxygen into contact with the fatty tissues. Fat then separates and passes out through pores with excreted moisture. The parts are thus reduced in size and weight, the flesh made firm and normal, the skin clear, smooth and beautiful, pleasantly and harmlessly.

Slenderizing the figure this new easy way is meeting with hearty approval by physicians who warn against dangerous internal drugs. The success of COLLIPASTE will surely revolutionize methods of reducing, because it is pleasant and healthful to use, at night, and it works while you sleep.

Many users report most amazing results.

"I think Collipaste is wonderful. It really reduces the parts you use it on, I started reducing my hips and stomach, and already feel like a new person. I have lost six pounds in two weeks."—Ada B., Philadelphia, Pa.

"Collipaste is giving me wonderful results in reducing my waist. It is certainly wonderful."—Mrs. L. M., Chicago, Ill.

"I must say Collipaste is wonderful. My hips have reduced considerably."—Miss M. B. N., Philadelphia, Pa.

"I have lost six pounds in two weeks. Please send me another jar right away."—Mrs. E. H. Y., Zanesville, Ohio.

"I am using Collipaste and am very much pleased with results obtained. Have dropped from 147 pounds to 140 in ten days. If you have no agent in this city, I would like to sell Collipaste for you."—Mrs. A. T., Davenport, Ia.

Beautiful Caryl Bergman, star dancer of "Rosalie," the great Ziegfeld Broadway success, who is said to have one of the most beautiful and valuable figures ever seen on the American stage, declared:

"I have been using Collipaste with remarkable results in keeping my figure reduced to the proportions required in my dancing in Ziegfeld's 'Rosalie.'

"I find Collipaste very beneficial to both skin and muscles of my limbs. It seems to give strength to the muscles and is splendid for reducing any fatty parts."

Get a jar now and take away those ugly, fatty parts, or reduce where you wish to.

Send no money. Simply mail Coupon below to Dermolav Laboratories, Dept. 5-N, No. 1700 Broadway, New York, N. Y., for jar costing only $1.95. On arrival pay postman. If you are not more than pleased with results your money will be refunded.

Fat People Die Young!

Are you fat? Then the chances are that you will not live long. For fat people die young. The man or woman who complacently lets the extra pounds pile up not only sacrifices comfort, but is actually committing slow suicide as well! Prove this for yourself.

Mrs. Edna M. Kleinau, from a photograph posed prior to the time she employed Physical Culture methods, described in full in her article, to add years to her life.

Take stock of your circle of acquaintances. How many of those above seventy, the years when life should be most enjoyable, are fat? Any? Then what chance of long life have you?

Day by day death is claiming thousands of men and women whose sunset years should be many, comfortable and happy—if they had only taken heed in time. Are you next in line? Are you going to take heed?

Weight control is a ridiculously simple matter. Luck, mysterious fol-de-rols, pills and potions have nothing to do with it. It is just a matter of how you live. You can just as easily live correctly as not. Start today to form the habits of health that will banish fat—that will add years to your life.

You will find inspiration and hope, no matter how far you have let yourself go, in the personal story told by Mrs. Edna M. Kleinau in Physical Culture Magazine for December. She reveals how in a remarkably short time she routed the afflictions that were leading her to an early grave and added years to her expectancy of comfortable, active old age by banishing excess poundage.

How You Can Develop Permanent Beauty and Charm

In this same magazine you will find other self-help information revealed as the result of actual experience that will help you to possess the health-given beauty and charm which are the birthright of every woman. You will find detailed information on personal problems which so closely answers your own questions that it might well have been written for your individual instruction and aid. Here are facts that will surprise you—facts that will help you—facts that will assist you in building the kind of health to which beauty and charm are inseparable attributes. You will find Physical Culture a guide to vigorous, vital, radiant living.

How to Keep Your Family Well

The tremendous responsibilities of the woman who manages a home are a particular concern of Physical Culture. To that end it publishes authoritative information on health foods, their preparation, and the results obtainable from certain combinations of foods. It makes a specialty of child care, each issue devoting many pages to discussions and instructions relative to problems of this nature. It gives practical suggestions, based on wide experience, for the treatment of the illnesses which the home maker may find it necessary to handle without delay. All this in addition to general health information with which every one should be familiar in order to protect individual and community health. The table of contents of the December issue is outlined in the column at the left of this page. Read the surprising number of help-promising titles it contains. Then get your copy at the nearest news stand and start yourself, and those near and dear to you, on the highway to real physical well being without another day's delay.

Make a Habit of Good Health

Every living woman should read what Estelle Keys Bertine has to say about making your daily occupations pay you dividends in beauty and superb vitality. In Physical Culture for December, illustrated with a series of particularly graphic poses, she shows how a little thought applied to your daily work can transform routine into health and beauty exercise of the most beneficial sort. Why not apply her suggestions to yourself? It requires no additional time—no special equipment—no financial outlay. Can you think of any other method of health building as easy? Read her article—a real contribution to the welfare and comfort of American womanhood—and you will undoubtedly be inspired, as she has inspired countless others, to make yourself additionally attractive and alluringly wholesome.

Below is pictured the cover of the December issue of Physical Culture. Painted by Haskell Coffin. You will recognize it immediately on the news stands by its blue lettering and the attractive mother and child it depicts.
